CONTENTS

VIEW POINT

Satisfying the industry demand for talents is the responsibility and mission of the water

science and Engineering Major Cui Fuyi (1)

MUNICIPAL WATER & WASTEWATER ENGINEERING

Pilot experiment of ultrafiltration-ozone-biological activated carbon advanced process

for treatment of Taihu Lake Yin Qi, Guo Xiaolong, Gui Bo, et al (9)

Tracking analysis of activated carbon filter in water treatment plant

..... Hu Shuyuan, Shi Lu'na, Da Yuewu, et al (13)

Optimization of operation parameters of Flow Split SMF in water treatment plant based

on RSM method Li Duwang, Huang Youwen, Guan Hao (18)

Design of water supply connection process under the world bank doing business

assessment framework Bao Yuequan, Dai Jie, Chen Zhongmin, et al (24)

Analysis of discharge standards of wastewater treatment plants in Yangtze River delta

region and consideration of the measures for upgrading Chen Xiucheng (29)

Research and engineering application of optimized operation of municipal wastewater

treatment with low carbon source Jing Xiangshun, Li Xinwei, Zhang Xiaohong, et al (33)

Analysis of international commonly used indicators of wastewater treatment and its

applicability in China Gao Chenchen, Sun Yongli, Liu Yu, et al (38)

Design and research of pipeline transportation system for dewatered sludge from

leachate in domestic garbage incineration plant Zhao Yongzhi, Zhao Jin, Nie Yiwen, et al (42)

SPONGE CITY PLANNING & PRACTICE COLUMN BY XMUPDI

Headline of "sponge city planning & practice column by XMUPDI" Wu Lianfeng (45)

A case study of the sponge city construction plan in built-up areas Wu Lianfeng (46)

Exploration on the systematic plan of sponge city construction in new urban areas :

a case study of the south new area in Xiang'an, Xiamen Huang Daishi, Wu Lianfeng, Li Yunjie, et al (51)

Sensitivity analysis of SWMM model LID facility parameters based on morris analysis

..... Wang Zeyang (57)

Research on the construction scheme of industrial factories based on sponge

city concept Huang Daishi, Wang Ning, Wu Lianfeng, et al (63)

Study on the strategy of prevention and control for internal heel under the intelligent

sponge system: taking Xiamen as an example

..... Ding Siyuan, Zeng Jian, Wang Ning, et al (67)

Thoughts on systematic programming of sponge city and Xiamen practice

..... Wang Zeyang, Huang Daishi, Xie Sheng, et al (74)

INDUSTRIAL WATER & WASTEWATER ENGINEERING

- Simulating study on zero discharge process of salt-containing wastewater from coal chemical industry Yao Min, Yang Shuai, Jing Yunhuan, et al (79)
- Example of the solving to ammonia nitrogen enrichment in wastewater zero discharge system of coal chemical project Wei Jianglang, Liu Chunlin (84)
- Application and designing of upgrading and modifying wastewater treating plant in a petroleum refinery Yu Wei (87)

BUILDING WATER & WASTEWATER ENGINEERING

- Study on the reliability of fire protection water supply in Beijing Daxing International Airport terminal Qu Liansong (92)
- Design on water supply and drainage and fire protection system of rare fishes conservation center of Yangtze River Chen Xinyu (98)
- Research on water quality and quantity monitoring index of fire water tank and Internet of things system construction Yang Qi (103)
- Numerical simulation study on available water filling time of preaction sprinkler system in micro module data room Ni Zhenchu, Cong Beihua, Zou Li (108)

WATER SUPPLY & DRAINAGE NETWORK

- An example of the pressure balance of the east and west of the island based on the hydraulic model of the pipe network Hou Yingna, Yang Yu, Fei Xiali, et al (113)
- Floating treatment scheme for steel pipe-jacking relay room under complex environment Cheng Guo (116)
- Application study of BIM technology in outdoor pipeline design Li Bing, Fang Yumei, Wang Shen (119)
- Study on optimal operation of water distribution system under demand uncertainty Zhang Chao, Liu Haixing, Gu Jianqiang, et al (124)

COMPUTER TECHNOLOGY

- Rapid construction of SWMM model for municipal storm sewer system based on GIS preprocessing Guo Jun, Yang Tao, Chen Baoyu, et al (131)
- Simulation analysis of influence of sedimentation for municipal drainage pipeline on overflow and ponding based on SWMM Wu Huiying, Jiang Kaibing, Li Tianbing, et al (135)

STANDARDS & REGULATION FIELD

- Discussion and practice of full pressure start control circuit of fire pump Luo Jing, Xie Bo, Liu Renmeng (140)

Call for Papers

As the eldest and most distributed professional journal of water industry, *Water & Wastewater Engineering (W&WE)* gained very wide acceptance from the colleagues working in this field in this country since start publication in 1964. Now it is administrated by the Ministry of Construction of the People's Republic of China and sponsored by the China Civil Engineering Society etc.

W&WE is a comprehensive monthly deal with practical techniques in design, construction and operation, also theoretical theses and information are included. Special columns of Municipal Water and Wastewater Engineering, Industrial Water and Wastewater Engineering and Building Water and Wastewater Engineering etc have been established.

In order to strengthen the contents of *W&WE* on the world wide technical advancing and dynamic developments in water industry, we call for papers including development strategy and planning, major technical practice and prospect, innovation and exploration of water industry etc. Both original scientific papers and news for new media are acceptable and welcome. We are waiting with best wishes.
