Call for Papers

As the eldest and most distributed professional journal of water industry, *Water & Wastewater Engineering (W&WE)* gained very wide acceptance from the colleagues working in this field in this country since start publication in 1964. Now it is administrated by the Ministry of Construction of the People's Republic of China and sponsored by the China Civil Engineering Society etc.

W&WE is a comprehensive monthly deal with practical techniques in design, construction and operation, also theoretical theses and information are included. Special columns of Municipal Water and Wastewater Engineering, Industrial Water and Wastewater Engineering and Building Water and Wastewater Engineering etc have been established.

In order to strengthen the contents of *W&WE* on the world wide technical advancing and dynamic developments in water industry, we call for papers including development strategy and planning, major technical practice and prospect, innovation and exploration of water industry etc. Both original scientific papers and news for new media are acceptable and welcome. We are waiting with best wishes.
